PROFILE

An enthusiastic and detail-oriented IT graduate with a strong understanding of front-end development and software engineering principles. Passionate about building both user-centered designs and systems that are robust and scalable to build intuitive experience for users. Well-versed in HTML, CSS and JavaScript and modern frameworks, as well as having experience with UI/UX design tools, i.e. Figma and Adobe XD. I am looking to leverage my skills in a team-based environment on real-world problems to create software that enhances user experience while applying creativity in applications. I am also eager to expand my knowledge and experience of UI/UX and software development to expand my learning opportunities.

ACADEMIC QUALIFICATIONS

- Passed G.C.E O/L (ordinary level) in Tamil stream in 2019.
- Passed G.C.E A/L (advanced level) in Tamil stream in 2022.
- Currently reading BIT in Information Technology at the University of Moratuwa and Sri Lanka Institute of Advanced Technological Education. (SLIATE).

PROJECTS

Academic Project | SLIATE ATI

- Designed and developed a inventory tracking system using C# language and SQL database.
- Designed and programmed a 2D video game using JavaScript technology.
- Created a WordPress News Websites and a E-Commerce website
- Designed and developed a Student Programming Master Tool - A web-based application built using HTML, CSS, and JavaScript
- Design and develop OTP-Based Student Attendance Marking System using HTML5, CSS3, JavaScript with Laravel

EXTRACURRICULAR ACTIVITIES

Digital Literacy Platform | Digital Era Project 2024

- Led a digital awareness campaign across Uva and Central Provinces, engaging multiple groups with 50+ participants each. Coordinated a 5-member team to support and implement ongoing digital literacy initiatives.

Support Volunteer | Traveling History Museum Project | Search for Common Ground, Sri Lanka

- Engaged more than 300 community members through educational exhibits and interactive experiences and provided technical support for multimedia presentations and digital exhibits, ensuring a high-quality experience for all participants.
