

MADUSHAN SAMAYASIVAM

Junior DevOps / Software Engineer

Badulla, Sri Lanka | +94-741966711 | madushansivam@gmail.com | github.com/madushansivam | linkedin.com/in/madushansivam | madushansivam.github.io/portfolio

PROFILE

Final-year HNDIT (Information Technology) student and self-taught engineer who ships. Built an LLM-powered autonomous testing agent, a Kubernetes autoscaling pipeline on GKE, and a containerized cloud API on AWS — independently, end-to-end. Comfortable moving across the stack: frontend, backend, cloud infrastructure, and mobile. Owns projects from design through deployment.

TECHNICAL SKILLS

Programming Languages: Go, Python, C#, HTML5/CSS3/JS, React, TypeScript, Tailwind

Frameworks & Tools: Node.js, Express, .NET, Docker, Kubernetes, Jenkins, AWS, Linux, Git, GitHub Actions, Terraform

Databases: Supabase, PHP/Laravel, MySQL, Firebase

SELECTED PROJECTS

AutoTest — LLM-Powered Autonomous QA Agent

Full-stack agent that takes a single URL, crawls the site, generates test cases via Llama-3.1-8B-Instruct, converts them to executable Playwright scripts, and reports results in a React dashboard — no manual test writing.

Stack: React/TypeScript/Tailwind, Express API, Supabase, Playwright.

github.com/madushansivam/autotest.git

LMS Android App — SLIATE ATI Badulla

LMS Android app for SLIATE ATI Badulla.

Stack: Android Studio, Java, Kotlin, Supabase.

github.com/madushansivam/lms-ati-badulla.git

KEDA / GKE Event-Driven Autoscaling

Kubernetes autoscaling pipeline on Google Kubernetes Engine using KEDA and Pub/Sub, with Kubernetes manifests and a GitHub Actions CI/CD workflow.

Stack: Kubernetes, KEDA, Google Kubernetes Engine (GKE), Google Cloud Pub/Sub, GitHub Actions.

github.com/madushansivam/keda-gke-event-driven-autoscaling

infra-auditor-cli — Go CLI for Infrastructure Config Auditing

Developed a Go-based CLI tool to audit GitHub repositories for configuration drift and security compliance, significantly improving operational efficiency by automating bulk scans via concurrency and shell scripting.

Scans multiple repositories at the same time instead of one by one, using Go's concurrency features to speed up bulk audits.

github.com/madushansivam/infra-auditor-cli

DevFlow — Automated CI/CD Pipeline

Designed and maintained a robust CI/CD pipeline using Jenkins and GitHub Actions for a containerized Python Flask + MySQL application, advancing infrastructure automation by deploying to AWS EC2 using Docker.

Stack: Jenkins, GitHub Actions, Docker, Flask, MySQL, AWS EC2.

LEADERSHIP & VOLUNTEESolunteer

Survey Enumerator | 2nd CAPR Program, Korea Friends of Hope International (KFHI) | 2026

Collected structured child welfare data across 25 GN Divisions in Badulla district using Kobo Toolbox. Captured health metrics, family socioeconomics, and education progress data for enrolled children. Ensured data accuracy and completeness across all assigned divisions within strict reporting timelines.

Volunteer | Traveling History Museum Project, Search for Common Ground, Sri Lanka | 2025

Engaged more than 300 community members through educational exhibits and interactive experiences and provided technical support for multimedia presentations and digital exhibits, ensuring a high-quality experience for all participants.

Digital Literacy Platform | Digital Era Project | 2024

Led a digital awareness campaign across Uva and Central Provinces, engaging multiple groups with 50+ participants each. Coordinated a 5-member team to support and implement ongoing digital literacy initiatives.

EDUCATION

Currently reading Higher National Diploma in Information Technology (HNDIT) at Sri Lanka Institute of Advanced Technological Education (SLIATE).

Passed G.C.E. Advanced Level (A/L), Engineering Technology stream — Index 4714946, 2022

Passed G.C.E. Ordinary Level (O/L), Tamil Medium — Index 95555692, 2019

CERTIFICATIONS

Web Development Workshop — Woocurs Academy, 2025

Python Programming — University of Moratuwa

Citizen Reporters' Training Certification — Hashtag Generation, 2024
